

# RidgeMaster®, RidgeMaster® Plus and HipMaster®

**World's premier ridge and hip ventilation system**

## The Toughest Ridge and Hip Vent in the Industry!

- ✓ Resists dents from tree branches and hammer blows to stay smooth and straight.
- ✓ Works efficiently regardless of wind direction or speed.
- ✓ Excels in keeping out weather and insects.
- ✓ Accommodates gable or hip, organic, fiberglass, wood, slate, or metal roof systems, residential or commercial, new construction or reroofing.

Backed by a worry-free  
40 year transferable  
warranty

## The vent that disappears!

Shingles over completely with no exposed baffles or fins to deteriorate or detract from your roofline.

**Easy to use Nailing & Shingle Alignment Guide.** For smooth installation and perfect spacing and alignment of shingles.

Meets or exceeds  
all major building  
code standards  
See BOCA Research  
Report 96-33

**RidgeMaster, RidgeMaster Plus and HipMaster** are proven to withstand—

**Wind-driven rain in excess of 8 inches per hour.**  
**Results: No Leakage**

"Wind-driven rain test" conducted by,  
Construction Research Laboratories,  
Dade County, Florida  
Dade County Approval No. 92-0424.2

Best results are obtained by using ridge  
vents in conjunction with equal or  
greater soffit ventilation.

**What you don't see  
makes the difference!**

See page 35 for other great  
features of the world's  
premier ridge and hip  
ventilation system.

Roof Ventilation

RidgeMaster Plus

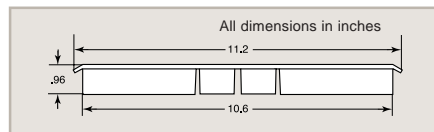

RidgeMaster Plus and HipMaster

**RidgeMaster Plus** works by natural convection, without external baffles or fins, to provide a uniformly cool attic space prolonging roof life and increasing comfort.

Withstands wind driven rain!

**HipMaster** provides necessary ventilation for hip roofs and interlocks with **RidgeMaster Plus** to blend beautifully into rooflines.

## RidgeMaster®

- Accommodates all roof pitches from 3/12 to 16/12. Comes in 4ft. lengths.
- Patented internal baffle system prevents bugs, blowing snow and rain from entering.
- Shingles over completely to blend perfectly with your roof.
- Used for fascia vents also. (See p. 34)

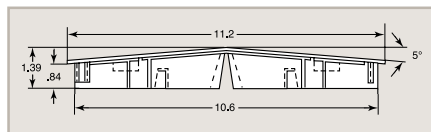

PEAK VENT

Easily adapts to a Peak, Flash or Fascia Vent (See p.34)

FLASH, SHED OR BASE VENT

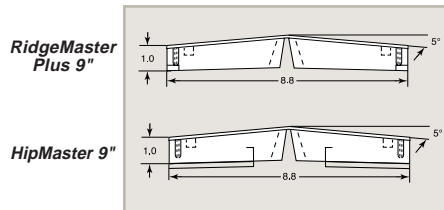

## RidgeMaster® Plus

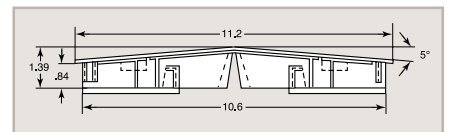

- For all roof pitches from 3/12 to 12/12.
- Patented added pitch shows more shingle profile and less vent opening. Blends perfectly into roof lines. Comes in 4ft. lengths.
- Patented internal baffle system prevents bugs, blowing snow and rain from entering.
- Easily adapts to a Peak Vent or Flash Vent.

### RidgeMaster Plus 9" and HipMaster 9"

- For 9" hip and ridge.
- Same features as **RidgeMaster Plus** and **HipMaster**. Comes in 4ft. lengths.

Withstands hurricane and blizzard conditions!

## HipMaster®

- The only venting system designed specifically for hard to ventilate hip roofs.
- Pat. pend. triple baffle system engineered to keep blowing rain and snow from entering.
- For all roof pitches from 3/12 to 12/12. Can be joined with **RidgeMaster Plus** to blend into a uniform roof line.

U.S. Pat. Nos. 4,924,761, 5,009,149, 5,060,431, 5,174,076, 5,458,538. Other U.S. & Foreign Pats. Pend.

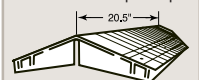

EXCLUSIVE!  
Only HipMaster Has a Patented Triple Baffle System!

Patented Hip Baffle

### HipMaster Starter Piece

Blends regular or 9" HipMaster into roofline at bottom or top of hip.

# Special Applications

## Residential or Commercial, New Construction or Reroofing

**Metal**

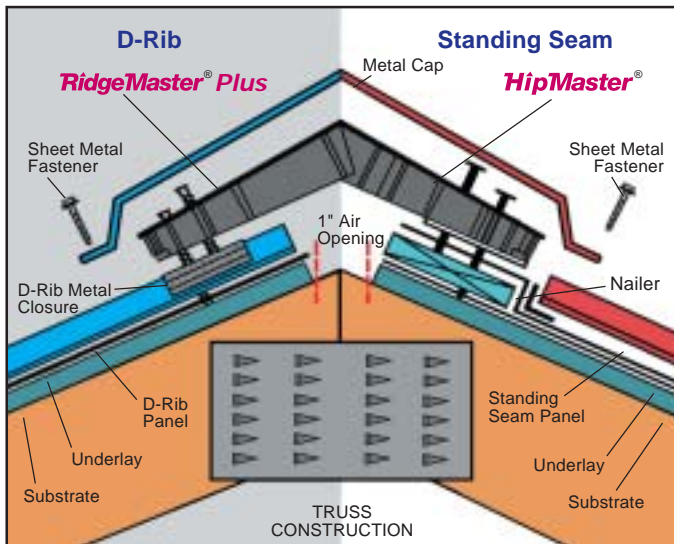

**Slate**

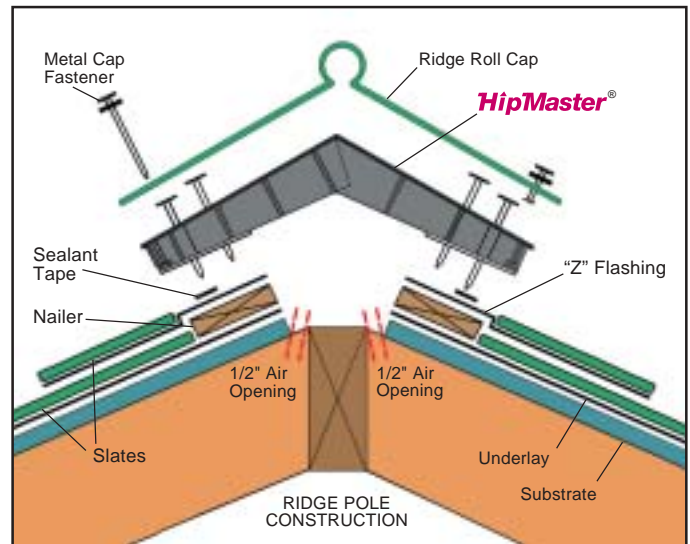

**Wood Shingle**

### METAL ROOFING

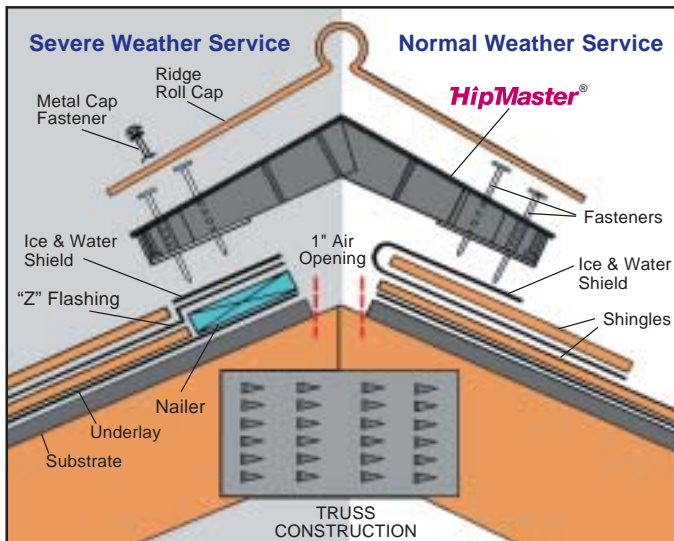

For use with D-Rib or Standing Seam roofs. Adapts to ridge pole or truss.

### SLATE ROOFING

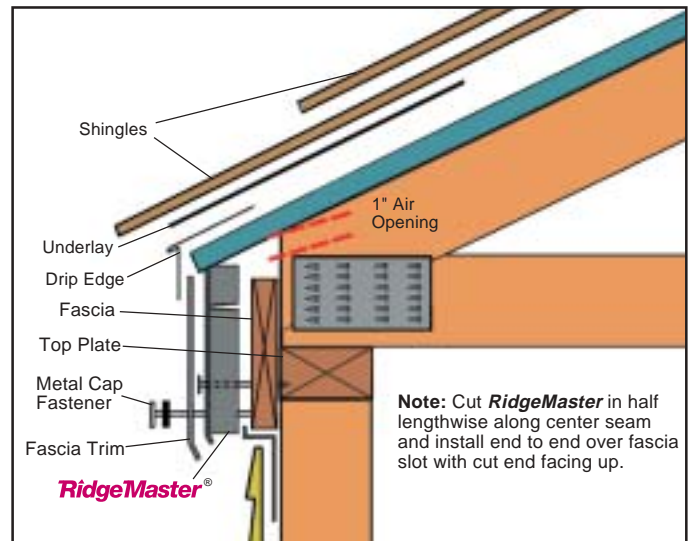

For use with standard and textural slates. Adapts to ridge pole or truss.

### WOOD SHINGLE ROOFING

Can be used with Blue and Red label No.1 and No. 2 Fivex-Perfections-Royal shingles. Adapts to ridge pole or truss construction.

### FASCIA VENTING

Great for homes with no soffit overhang. For new construction or retrofit.

Diagrams above are intended as a general overview only. More extensive installation instructions are available for these applications and others from Mid-America.

# RidgeMaster® Plus

*What you don't see makes the difference!*

Meets or exceeds all major building code standards

**Water and snow resistant.** Patented computer designed "internal baffle system" rolls back rain, wind and snow.

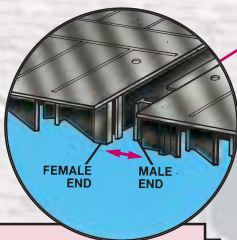

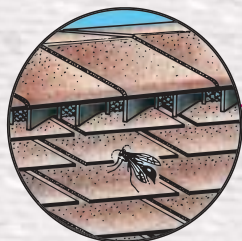

**Durable copolymer.** Resists cracking regardless of temperature. 40 year limited warranty.

**Ultrasonically sealed blowing snow and bug barrier.** Cannot clog with leaves, pine needles, etc.

**Self-aligning, interlocking ends.** This patented feature helps provide quick alignment and ensures that no weather or insects can enter between venting units.

**Vents the entire peak continuously and effectively.**

Works by natural convection to siphon moist, hot air out of attic spaces. Needs no exposed baffles or fins to work which can deteriorate and detract from appearance.

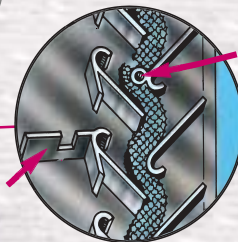

**Built-in end caps.** Improves weather resistance, simplifies installation and adjusts to roof pitch.

**Ship-lap design.** Allows for expansion and contraction during temperature extremes.

**The strongest ridge vent in the industry.** Resists dents from tree branches and hammer blows.

**Rugged crush proof construction.** With nailing supports and structural ribs designed to ensure a smooth and straight roofline.

- Patented internal baffle system works efficiently regardless of wind direction or speed without exposed fins or baffles.
- Excels in keeping out weather and insects.
- Patented crush proof ribs and nailing supports ensure a clean, smooth roofline.
- Accommodates organic, fiberglass, or wood shingles, slate or metal roofs.

U.S. Pat. Nos. 4,924,761, 5,009,149, 5,060,431, 5,174,076.  
Other U.S. & Foreign Pats. Pending

Mounting Accessories

## CapMaster®

*Improves stack vent appearance*

- Dual wall construction slips in and over roof vent pipes ensuring that water is directed down drain or onto sealed shingles. Fits all 3" and 4" vent pipes.
- Protects and beautifies your roof. Ends stack vent leaks forever
- Adapts to all roof pitches from 3/12 to 12/12. Only tools needed are scissors or snips to follow imprinted pattern for any pitch.
- Only Mid-America offers four colors to complement any roof. **CapMaster** beautifies as it protects!

*No more ugly PVC or tar stained pipes to mar your roofs appearance!*

Roof shown with **CapMaster**, and **RidgeMaster Plus**. Gable vent shown for decorative purposes only.

Four colors to choose from. Friction clips hold them in place. No need to caulk.
